Frontend Stack: HTML5, CSS3, Javascript, React, Git, Github, Jira, Confluence

EXPERIENCE

11/2024 - Present

AXA Japan

UI/UX Designer

- Conducted user research, gathered business requirements, and analyzed compliance regulations to design intuitive and compliant digital experiences for both internal teams and customers.
- Delivered wireframes, interactive prototypes, and high-fidelity mockups within an Agile Scrum environment, ensuring alignment with business objectives and regulatory standards.
- Collaborated with cross-functional teams, including product managers, developers, and compliance officers, to create scalable design solutions that improve user engagement and operational efficiency.
- Contributed and utilized the corporate design system, ensuring consistency across digital platforms while adhering to branding guidelines.

05/2022 - 11/2024

Unibuzz Networks

Lead UI/UX Designer

- Directed design strategies and led the end-to-end design process, from user research and concept development to wireframes, prototypes, and high-fidelity mockups.
- Mentored and guided a team of designers by providing regular feedback, conducting design reviews, and facilitating collaborative brainstorming sessions to foster creativity and innovation.
- Established and maintained the design system, ensuring consistency, scalability, and brand alignment across web and mobile platforms.
- Collaborated closely with cross-functional teams, including software, marketing, and business units, to align design goals with organizational objectives.

09/2021 - 05/2022

Nanum Digital Design Institute

Frontend Engineer and Interface Designer

- Developed responsive, accessible, and high-performance user interfaces for a digital design institution's website to ensure functionality across devices and browsers.
- Maintained and expanded the website's component library, promoting design consistency and development efficiency.
- Built modular and reusable UI components with React and used version controlling with Git.

01/2021 - Present

Freelance

UI / UX Designer

- Developed responsive eCommerce interfaces for an alcohol delivery platform, focusing on product discovery, secure checkout, and personalized recommendations.
- Designed user interfaces for an esports recruitment platform for creating player profiles, team search features, and connection flows to enhance user engagement and streamline recruitment processes.
- Delivered scalable design systems tailored to each platform, supporting long-term growth and simplifying future updates.
